

4 R Kids ECI Area Report 3rd Quarter Report FY2022

Program service type as defined by ECI: Family Support - long term home visitation

Agency:	Short Years Partnership		
Name of Program:	Parents as Teachers		
Completed By:	Rachel Bardwell and Sheena Sullivan	Date:	4/12/22
Benchmark Targets and ECI Grant Award		Year To Date Completed	

\$272,000.00	ECI grant award		
110	Families	93	Families
1100	Visits	768	Visits
12	Group Parent Ed	11	Group Parent Ed
3.25	FTE Educators	4	FTE Educators
0.5	FTE Supervisor	0.5	FTE Supervisor
0.5	FTE Director	0.5	FTE Director

Comments regarding meeting benchmark targets

We continue to make good progress on our benchmarks. Our visit totals continue to grow every month. Despite winter driving conditions, seasonal illnesses, and the ongoing pandemic, we had our highest visit totals of the year in this past quarter.

# of Home Visits By County		# of New Families Enrolled	
477	Dallas	28	Dallas

Other Comments

- (Provide comments regarding the agency data base system compared to DAISEY)
- (If there has been a client waiting list, explain why and how you are addressing it)
- (Other comments may be a story of interest, challenges, and/or successes)

We have coordinated two meetings with staff from the Start Smart for Baby program with Iowa Total Care. The first meeting was with the program director; and the second meeting with all the staff in this program across the state. We continue to work on this partnership, in hopes that it will increase our number of prenatal referrals.

We held our first in-person Group Connections since the pandemic began. Our Block Fest events were a welcome return to a new 'normal,' both for our families and our Educators.

One thing that has come to light this quarter, is that our Educators need more training and support to properly serve prenatal families. The PAT curriculum is not as deep in the prenatal age range, as in other age ranges. We have communicated this need to state personnel through the PIP meetings, and this information was met with appreciation. We are eagerly awaiting news on additional trainings that will be available to our staff, as PIP participants.

Community partnerships have strengthened at the organization and program level. We have received multiple invitations to speak at community meetings about our programs. We have also had community businesses and groups host diaper drives for us this month. Community partnerships have also strengthened at the family level, as we continue to connect families to needed resources. Our Educators are spending an increasing amount of time getting to know community providers who can assist our families with their needs.

We briefly had a waiting list this quarter, of one family, and this family has already been moved off the waiting list and enrolled in our program. We remain near our capacity in Dallas County. Our rapidly growing program utilized 92% of awarded ECI funds by the end of March. However, we have additional funding sources and reserves to operate through the end of the program year.

Performance Incentive Program (PiP)

Provide an update as to the progress of meeting the below benchmark targets.

(50% prenatal enrollments; 85% of age eligible children with a completed ASQ; 50% of prenatal and up to 12 months postnatal mothers with a completed depression screening)

Prenatal enrollments: 44%

ASQ: 73% (NOTE: The state has made a change to the way the bonus is awarded for the ASQ benchmark. Rather than awarding \$500 at mid year and again at year end, they are offering \$1000 at year end, for programs who meet the 85% threshold at year end. We hope that 4RKids will make this change also.)

EPDS: PIP has changed the definition of who needs an EPDS in order to meet this benchmark. Thus, we are unsure of how this number is being calculated. We have asked for additional information regarding this. We can provide our internal numbers if needed; but need to know what definition you would prefer us to use.

Starting in January we have been able to schedule a monthly meeting with Joyce and the staff to discuss any issues with families or personally. Everyone has bene in good attendance and seemsto have a better understanding on how she can help everyone. This is something we will continue each month. We have had 3 sessions so far, with multiple individual sessions.

Performance Incentive Program (PiP)

Provide an update as to the progress of meeting the below benchmark targets.

(50% prenatal enrollments; 85% of age eligible children with a completed ASQ; 50% of first time mothers enrolled)

Currently we are at 61% of families enrolled prenatally, 65.9 families enrolled as first time mothers and 88.2% of our ASQ's are completed. This is something we are very happy to be above on, and staff shoudl be very proud of themselves for meeting these benchmarks.

Other comments

This past quarter there has been an increase in the use of both individual and group reflective consultation with a total of 7 participants in both services. Another EPDS training was held in February and March. Individual consultation has been used to process emotions triggered by the struggles and trauma of the parents and children served. Two group reflective consultations were provided and focused on emotionally intense family cases and how providing a safe space for parents to talk about their struggles is as important as providing resources.

Other comments

A total of 3 Administrative/Supervisor Group Reflective Consultation sessions and 3 childcare provider group reflective consultations were provided in 2 three childcare centers in two of the counties served. Additionally 35 individual reflective consultation sessions were provided to childcare providers, supervisors and administrators. There has been an increase in the number of individual consultations requested, which is indicative of the high levels of stress experienced by both classroom providers and administrators due to the staff shortages that many centers are experiencing. One additional Warren county childcare center has requested to start a Circle of Security class for childcare professionals. This class will begin the second week of April and will include 8 sessions for a total of 16 hours of training.

Other Comments

No COSP classes this quarter. Online class with ALA still getting participation. Did receive call back from Senator after contact letters went out. Had a Zoom call to fill her in on more of what I do, especially about the mental health program. Participated in State ECI Directors meeting in March to answer questions about the 4RKids mental health project.

Other comments
(This can be a short story or other information)

During this quarter, the CCNC attended a train-the-trainer for PALS (physical activity learning sessions). This curriculum is for childcare and early childhood educators and promotes physical activity in the learning environment. There was a decrease in TA contacts for COVID related questions, but an increase in contacts for other health and safety concerns. CCNC attended an early childhood resource fair, which served as a great networking opportunity.

Other comments

A CCNC was contacted by a DHS consultant regarding a home child care provider in Perry. He was concerned about significant paint peeling on the outside of the house. The home childcare provider is renting the house where she lives and provides childcare. The CCNC made contact with Dallas Community Region 12 Council of Gov. Housing Program regarding grants or funding, but there is a 2 year wait list for Perry at the present time. The CCNC also contacted Dallas County Health Dept, HUD of Dallas County, Polk County Health and Kay at Dallas Co. Housing Trust Fund. If funds/grants were available, the owner must reside in the residence and qualify as low income. The CCNC then contacted the city of Perry Housing Inspector who said the renter could file a complaint but they could most likely not force the owner to fix the issue. With support from the CCNC and DHS, the childcare provider did finally reach an agreement with the owner to split the cost of new siding for the house. The new siding is scheduled to be complete this spring and until that time a safety plan was established to have outdoor play for the children off-site at local parks. The partnership between CCNC and DHS helped identify the issue and potential resources as well empower the childcare provider to address the situation with the owner. It also highlights the lack of available community funds to address a potentially serious health risk to children.

Other comments

(This can be a short story or other information)

There have been many changes at CCR&R this quarter. We have started using a new statewide database to track all technical assistance, consultations, and the referral program. This quarter was busy with programs who wanted to submit an application in the old QRS program, and there were consultations around preparing for the new IQ4K program. As Michelle had shared in her monthly report, the majority of the programs who applied in the QRS program can now collect a higher CCA amount due to the increased QRS level. There has been work around the IQ4K Rating System as it is brand new program that will be completely online and extensive work will need to be done with programs to help them update their information in I Power and upload documents. The length of time consultations has increased due to this change, and more consultations are happening with programs around this preparation work.

Other comments

I have a center with a brand new director and she began working with the CCNC program several months ago. She had worked in daycares before, but never heard of our program. I've made a visit and she calls me about weekly with a new questions. She is very excited to work with me. We are still working on policies and plan to move to do child record review soon. She has thanked me repeatedly for helping her with review of policies and COVID questions. I feel her knowledge of illnesses, COVID, and disinfecting is so much more just in the last month. The director feels her knowledge has improved and she is training her staff with the same knowledge she has gained. In the end, the children are the ones that benefit from this. I am excited to continue working with her and get this facility on the QRS rating system!

One of the providers who completed the ChildNet 3.0 series last quarter, completed certification this quarter. This provider has been doing care for about three years. She wanted to be ChildNet certified but hadn't been able to take the ChildNet 2.0 course. so she was really excited to be able to take the ChildNet 3.0 course when it was offered. It has been wonderful to see this provider decide to take the series and become certified. She has great enthusiasm and is excited to show that she is offering a quality program. She is now working towards completing her IQ4K application as well. Kelly feels this is a huge success!

Other comments

(This can be a short story or other information)

Michelle was excited as one of these programs worked toward achieving a Level 4 QRS rating as their very first rating! She was so pleased they wanted to work towards this goal! I think it is also good to note that six of these seven programs accept CCA and one has almost half of their children supported by this funding.

Other Comments

(This can be a short story or other information)

One of the recipients of this incentive received the Start Up and the Registration funds. She submitted her application to DHS and become registered as a Category B. She accepts CCA and serves two children supported by this program. She currently has 6 children enrolled in her program. The new providers this quarter are located in Stuart, Indianola, Winterset, and Waukee, the majority of them accepting CCA. Kelly is so pleased to have these new providers.
